

3D technology integrated seamlessly with 2D pattern design for a better fit and a more productive design to production workflow.

ACCUMARK'S POWERFUL QUALITY CONTROL, COMMUNICATION AND TIME-SAVING FUNCTIONS HELP BRAND OWNERS AND MANUFACTURERS MAXIMIZE PRODUCTIVITY, MINIMIZE WASTE AND MAINTAIN STRICT BRAND GUIDELINES.

ACCUMARK® 3D 11 TAKES THIS TIME-TESTED SOFTWARE TO A WHOLE NEW DIMENSION, ENABLING YOU TO UNLEASH YOUR CREATIVE VISION, ACCELERATE YOUR DESIGN PROCESS AND PROMOTE GLOBAL COLLABORATION.

### Seamless integration.

- Bring a whole new level of imagination and creativity to your design department.
- Seamless integration with AccuMark to increase speed to market from design to production.
- Integration with Avametric, the leader in fabric simulation, for state-of-the-art realism.
- Combine the latest in 3D rendering technology with proven pattern design software.
- Allow designers to generate better and more diverse design ideas.

### Increase efficiency.

- Add and modify images in the 3D environment, then sync the changes back to your AccuMark data.
- The AccuMark 3D interface is intuitive and easy to use.
- Simulate graded samples to validate fit and design for your entire size range.

- It's an AccuMark program, so you can quickly integrate it into your workflow.
- Meet tighter deadlines by creating true-to-life virtual samples.
- Leverage virtual sampling to improve the design process.
- Simple drag-and-drop functionality makes it easy to change fabrics.

### Improve collaboration.

- Share designs and virtual samples on a global basis.
- Create presentation ready images with the click of a button.
- Promote interaction and teamwork among designers.
- Be much more responsive to your customers' needs.
- Select alterations to simulate from a dropdown menu in the avatar window.

Visualize patterns with the click of a button.

Share virtual samples with partners worldwide.

NOTE: Configurations vary according to options selected. Specifications are subject to change without notice.

### Save time and money.

- Deliver a higher quality product at a better cost.
- Attain greater control of the entire design process.
- Toggle the transparency of garments to confirm a flawless fit and approve the sample sooner.
- Reduce your time to market by providing realistic digital renderings of your design from concept to finished product.
- Gain efficiencies through integration with the AccuMark suite, as well as YuniquePLM®.

### Windows® 7, Windows 8.1, and Windows 10 System Requirements

- For basic operating system hardware requirements, please refer to the Microsoft® website for details related to each. In addition to the minimum outlined requirements by Microsoft:

For use with AccuMark 3D	
Processor Speed	Core i7-6700 or higher
Hard Disk Capacity	500 GB (Solid State Drive strongly recommend)
Memory	16 GB
Service Packs	Current
Graphics Card	Open GL 3.2 compatible

### Additional requirements:

- All operating system updates must be installed.
  - On Windows 7 systems, go to the Start Menu, Select All Programs followed by Windows Update then Install Updates. Note that this requires an Internet connection.
- A Solid State Drive (SSD).
- An open GL compatible graphics card such as the Nvidia® Quadro® K1000M or better.
